Re: Nationwide Gutter: Letter of Reference

In the mid 1990's as a superintendent and since then as a project manager I have utilized Nationwide Gutter for all of my gutter and downspout services on more than two dozen projects. You will not find a more reliable and professional subcontractor in any trade. I have worked with Rene Grossman and Clay Pyle on several challenging projects and their expertise has and experience have enabled us to avoid a lot of problems. After all, the last thing we need is problems with roof gutters.

I fully recommend Nationwide Gutter, and Rene in particular, to you as an organization and man of integrity and honesty that will perform as promised with the highest standards of workmanship and the best value for your dollar. Over the years I developed a list of 'go to' subcontractors that I know I can depend on and they are at the top of that list.

Should you need any further conversation I am happy to take your call.

Regards,

Kelton Gunter
